

Now Available, at NO additional cost.

ADVANCED HYDRANT MANAGEMENT SYSTEM **with Google Maps™**

Easily see all of your water-source locations, with details including flow rates, number and size of outlets, and much more!

- Load hydrants from spreadsheets, from maps, and individually.
- Load hydrants from anywhere with Internet access.
- Hydrants (and all water sources) are instantly viewable on all lamResponding mapping systems, including in all IaR apps.
- You'll see every water source in your district, in your mutual aid districts, and in any district where lamResponding is used!

*Free to all members of departments/agencies/teams with a current lamResponding.com subscription.
